COMPANY **PROFILE**

Saba Al-Hazara Company for General Trading Ltd. is a privately owned Iraqi company specialising in general trading of goods and services for Oil, Gas and Energy companies, government entities, and NGOs.

With a team of experienced professionals and the necessary resources, Saba Al-Hazara is equipped to meet high standards of performance through teamwork and effective supply chain management. Each division is staffed with skilled, multidisciplinary personnel focused on understanding client needs and delivering value-driven solutions.

Our team includes qualified engineers, creative designers, and dedicated support staff, enabling us to provide comprehensive and efficient services. The company's management brings extensive experience in operations, maintenance, refineries, project planning, mobilization, and execution. We prioritize continuous improvement, strong client relationships, and staying current with industry trends.

OUR VISION

Operational Excellence

Saba Al-Hazara is committed to achieving the highest standards in all aspects of its operations. This includes ensuring reliable processes, maintaining safety and quality, meeting deadlines, and continuously improving internal systems. By optimizing workflows and adopting best practices, the company enhances efficiency and builds trust with its clients.

Best Price

Delivering value is at the core of the company's philosophy. Saba Al-Hazara strives to offer the most competitive pricing without compromising on quality or service. Leveraging its network of trusted suppliers and efficient procurement processes, the company ensures clients receive cost-effective solutions tailored to their needs.

Vast Service Provision

The company provides a broad spectrum of services under one roof, ranging from sourcing and chemical supply to maintenance and waste management. This integrated approach enables clients to rely on a single trusted partner for multiple industrial needs, simplifying project coordination and strengthening long-term partnerships.

OUR MISSION

Integrity

Integrity is the foundation of Saba Al-Hazara's operations. The company upholds honesty and ethical conduct in every interaction—with clients, partners, and employees. Transparency in business dealings and a commitment to doing the right thing, even when no one is watching, ensures long-term credibility and trust.

Respect

Saba Al-Hazara believes that every relationship—whether with clients, colleagues, or suppliers—should be built on mutual respect. The company values diverse perspectives, fosters a collaborative work environment, and treats all stakeholders with fairness and dignity.

Customer Focus

Customer satisfaction is at the centre of all company activities. Saba Al-Hazara actively listens to client needs and tailors its services to meet those expectations. By anticipating challenges and providing proactive solutions, the company builds strong, lasting client relationships.

Authorized Distributor

ZEECO COMPANY

Zeeco is a true pioneering force in combustion engineering. With decades of innovation, a global footprint, unmatched research facilities, and robust manufacturing, it offers high-integrity solutions that ensure safe, efficient, and environmentally compliant operations. Whether through product delivery or service execution, Zeeco positions itself as a trusted long-term partner for industrial clients worldwide.

Core Products & Services

Product Portfolio: Includes ultra-low NO_x burners, flare systems (air-assisted, enclosed, elevated, multi-jet), thermal oxidizers, VRUs/VCUs, combustion electronics, ignition systems, aftermarket parts, and rental combustion equipment

Service Offerings: Global field services, rapid-response aftermarket support, turnkey project execution, immersive technologies (AR, drone inspections, virtual testing), and pipeline-specific solutions.

Products Line

Burners

- Process
- Power/Steam
- Package Burners
- Pilots
- Burner Management Systems
- HVW High-Intensity
- Turnkey Services

Incinerators & Thermal Oxidizers

- Thermal Oxidizers
 - - Acid Gas/BTEX
 - - Sulfur Tail Gas
 - - Multi-Stage Low NO_x
 - - Low Btu/Permeate Gas
 - - Halogenated Waste
 - - Liquid Waste
 - - Downfired Salt & Spent
 - - Caustic Waste
 - - Carbon Monoxide
- Direct Fired Air Heaters
- Waste Heat Recovery
- Packaged Thermal Oxidizers
- Sulfur Recovery Equipment
- Sulfuric Acid Decomposition

Integrity

- Non-Assisted/Utility
- Sonic
- VariJet
- Steam-Assisted
- Air-Assisted
- Gas-Assisted
- Liquid
- Vent
- Pit Flares
- Multipoint Staged Ground Flares
- Enclosed Ground Flares
- Wellsite Flares
- Fixed/Retractable Thermocouples
- Liquid Seals
- Knockout Drums
- Pilots
- Flame Front Generator
- High Energy Ignition System
- Zeeco Ignition Pellet System (Ballistic)
- Derricks
- Self-supported
- Guyed Systems
- Guyed Derricks
- Demountable Derrick
- Turnkey Services

Marine & Offshore

- Power/Steam Burners
- Flares
- Incinerators
- Vapor Recovery
- Vapor Combustors
- Turnkey Services

Vapor Control

- Flare Gas Recovery
- Vapor Recovery
- Vapor Combustors
- Biogas & Landfill Flares
- Power Generation
- Turnkey Services

Combustion Rentals

- Vapor Combustion
- Flares
- Incinerators & Thermal Oxidizers
- Delivery/Set-up/Training

Scanners & Monitors

- Flame Scanners
- Flare Monitoring Systems

Aftermarket

Zeeco offers aftermarket products and services for all ZEECO® equipment and for competitors' equipment as well.

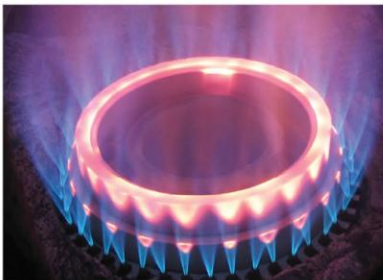

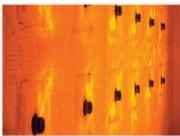

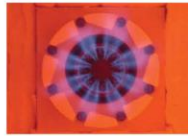

SPARE PARTS | SERVICE - COMMISSIONING - SUPERVISION | TURNKEY SOLUTIONS

AFTERMARKET SUPPORT & SERVICES PROVIDING

- » Spare Parts for Our Own Equipment
- » Replacements for Our Competitor's Equipment
- » Flare Tips Replacement & Refurbishment
- » Replacement or Upgrading of Existing Ignition Systems
- » Replacement Burner Pilots
- » Replacement Burner Tiles
- » Zeeco ProFlame Scanners
- » Vapour Recover Units (VRU) Revamp & Upgrades
- » Activated Carbon Stockists
- » Activated Carbon Lab Testing
- » BMS & Combustion Control Systems
- » Global Service, Supervision Commissioning Assistance Group
- » Rental Flare & VCU Fleet

Any Combustion System. Any Combustion Equipment Supplier. Anywhere in the World.

Zeeco is a world leader in aftermarket combustion products. Regardless of whether your equipment was manufactured by Zeeco or another combustion equipment supplier – we can restore, or improve, the safety, efficiency, functionality, and environmental performance of your equipment. Plus, we guarantee cost savings of 30% or more on replacement parts for other manufacturers' equipment. Choose the trusted partner in aftermarket parts. Go Zeeco.

THE ZEECO® PROMISE

100% guarantee of renewed or improved burner performance
money-back guarantee if you are not satisfied

Zeeco can provide replacement parts for any OEM's^[1] combustion equipment, including:

- JZHC
- HAMWORTHY®
- UOP CALLIDUS®
- NAO®
- COEN®
- TODD®
- PEABODY®
- FORNEY®
- SELAS®
- FIVES (PILLARD®)

Our experts understand the complexities of your system, not just the replacement parts. If you need custom components made specifically for your project, Zeeco can engineer a solution to fit seamlessly into your burner system and have it operating like new, or better.

Trust the industry leader with your replacement parts needs and see how Zeeco's combustion engineers and burner experts deliver on solutions that our competitors can't.

Burner Spare Parts

Our Services

- Chemical Supply
- PPE
- Instrumentation
- Valves & Pumps
- Electrical
- Service & Maintenance

Chemical Supply

Saba Al-Hazara Company offers reliable and tailored chemical supply solutions to meet the needs of various industrial sectors, including oil and gas, refining, drilling, petrochemicals, and water treatment. Our supply chain is built on quality, safety, and efficiency—ensuring timely delivery and consistent product performance.

Production Chemicals

- Demulsifies
- Scale inhibitors
- Wax/paraffin inhibitors
- Biocides
- H₂S and oxygen scavengers
- Corrosion inhibitors
- Drag reducers

Drilling Chemicals

- Caustic soda, soda ash, citric acid (alkalinity control)
- Xanthan gum, bentonite (viscosifiers)
- Barite, calcium carbonate (weighting agents)
- Defoamers (alcohol/silicone base)
- Corrosion and biocide additives
- Lost circulation materials (LCM)

Refinery Chemicals

- Neutralizing amines
- Antifoams
- Cooling water treatments
- Fuel additives
- Catalyst support agents

Service Capabilities

- Bulk and packaged delivery in 25,000L ISO tanks, 1,000L IBCs, or 200L drums
- On-site delivery with flexible logistics to remote and urban locations
- Tank/drum return program to reduce waste and cost
- 24/7 technical support through a team of specialist production chemists
- Local laboratory testing and chemical performance optimization

Instrumentations

Saba Al-Hazara Company supplies a comprehensive range of industrial instrumentation solutions for sectors like oil & gas, power, chemicals, and water treatment. We offer high-performance products—such as transmitters, control valves, analysers, and calibration tools—from leading global brands. Backed by expert engineers, we ensure compliance with IEC, ATEX, and SIL standards, and provide sourcing, installation, and technical support for both standard and hard-to-find instruments.

- Pressure, temperature, flow, and level transmitters
- Control valves and positioners
- Analytical instruments (e.g., gas detectors, pH meters, moisture analysers)
- Field instruments and sensors
- Signal converters and isolators
- Data acquisition and control systems
- Process calibration tools
- Panel-mounted instrumentation and indicators

Valves & Pumps

Saba Al-Hazara Company supplies a wide range of industrial valves and pumps for oil & gas, petrochemical, water treatment, and power sectors. We partner with top manufacturers to deliver durable, high-performance equipment that meets global standards. Our valve offerings include gate, globe, ball, butterfly, check, plug, diaphragm, and safety valves—available in various sizes, materials, and pressure ratings.

Valves - We supply an extensive selection of valves for diverse flow control applications, including:

- Gate Valves - Globe Valves
- Ball Valves - Butterfly Valves
- Check Valves (Swing, Lift, Wafer)
- Plug Valves, Diaphragm and Pinch Valves
- Pressure Reducing and Safety Valves

Pumps - Our pump supply covers a full spectrum of fluid handling needs, such as:

- Centrifugal Pumps - Gear Pumps - Piston Pumps- Diaphragm Pumps
- Screw and Lobe Pumps - Peristaltic and Progressing Cavity Pumps
- Submersible and Multistage Pumps.

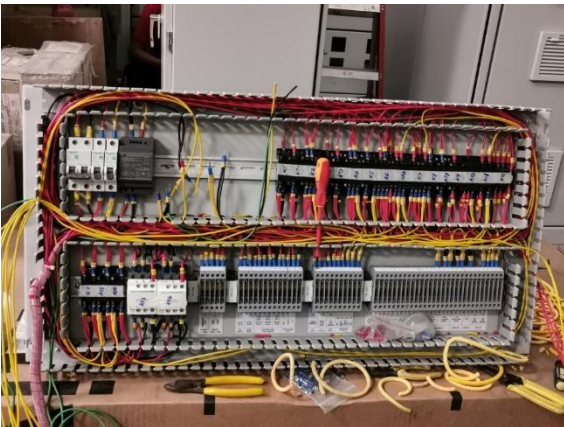

Electrical Items

Saba Al-Hazara Company provides a comprehensive range of electrical equipment and components designed to support industrial, commercial, and infrastructure projects. Backed by an experienced team of electrical engineers and technicians, we source and deliver high-quality electrical products tailored to meet our clients' specific technical and operational requirements.

Our electrical supply portfolio includes, but is not limited to:

- Cables and wiring (LV, MV, HV)
- Circuit breakers, switches, and panels
- Transformers and switchgear
- Lighting systems (industrial, hazardous area, emergency)
- Control systems and automation components
- Electrical enclosures and junction boxes
- Conduits, cable trays, and accessories
- Motors and drives

Service & Maintenance

Saba Al-Hazara Company offers comprehensive services and maintenance solutions tailored to the operational demands of industrial clients, including those in the oil & gas, energy, petrochemical, and infrastructure sectors. Our goal is to maximize equipment uptime, extend asset lifespan, and ensure the highest levels of operational safety and efficiency.

Maintenance Services – Our maintenance team is equipped to perform:

- **Preventive Maintenance** – Scheduled servicing to detect and correct issues before failures occur, minimizing unplanned downtime.
- **Corrective Maintenance** – Fast and effective repair of faulty systems or components, ensuring minimal disruption to operations.
- **Predictive Maintenance** – Advanced diagnostics and condition monitoring to anticipate problems and optimize maintenance cycles.
- **Shutdown and Turnaround Support** – Complete maintenance solutions during planned shutdowns, including manpower, equipment, and technical supervision.

General Services – In addition to maintenance, we offer:

- **Equipment Installation & Commissioning** – Setup, calibration, and testing of mechanical, electrical, and instrumentation systems.
- **Refinery and Plant Services** – Full-service support for routine and critical maintenance in production facilities.
- **Waste Management and Handling** – Safe and compliant collection, treatment, and disposal of hazardous and non-hazardous materials.
- **Technical Consultancy and Field Support** – On-site inspections, diagnostics, and recommendations to improve system reliability and efficiency.
